DATA FILES

Data files recently released are listed below. They are sold by Customer Services unless otherwise noted. The cost of new files on computer tape generally is based on the file size, with the minimum charge being \$175. The files are offered on tape reels or tape cartridges.

Data files also are offered on compact disc—read-only memory (CD-ROM), a 4 3/4-inch laser disc. The price for a mass-produced CD-ROM, prepared for popular files, generally is \$150.

CD-ROM's also can be prepared on request for other data files otherwise available only on tape reel or cartridge. The cost for such CD's is the same as the cost for the tape file. The CD files are ASCII copies in the same format as on tape, and they are not accompanied by software. Since the discs are specially prepared in response to customers' requests, orders take about three to four weeks, and we will not make refunds. For further information about this service, see the May MPA (page 9) or contact Customer Services.

Files available on diskette ("floppies") for IBM and compatible microcomputers also are listed.

Files carried on CENDATA™, our online information service, are identified by the word "CENDATA."

Further, an ever increasing variety of data files and product information (including this publication) can be accessed via Internet or directly through the bulletin board, Census-Bureau of Economic Analysis (BEA) Electronic Forum. (See "How to Order" on

page 10 for more information.) Some files are exclusively online, such as those listed in the "Online Data" section, below.

Technical documentation, included with each file order, also generally is available separately. The price varies.

Free Data Developments booklets provide brief descriptions of most files. They may be requested from Customer Services.

How to Order

Publications

To order publications marked with an asterisk (*) and free publications from Customer Services, use the Census Bureau "Publications" order form. Make your check payable to "Superintendent of Documents."

To order technical documentation for machine-readable data files, use the Census Bureau "Electronic Media, Microfiche, Documentation, and Other" order form. You may order from Customer Services by phone (301-457-4100; TDD: 301-457-4611) or fax (301-457-3842) when charging documentation to a VISA, MasterCard, or Census Bureau deposit account.

Unless otherwise noted, use the Government Printing Office (GPO) order form for other publications, or you may call 202-512-1800 when using your MasterCard, VISA or GPO Deposit Account. To order using fax, call 202-512-2250. The notation "GPO S/N" identifies the stock number.

GPO offers a 25-percent discount for orders of 100 copies or more of a publication sent to one address. For foreign mailings, add 25-percent to the price.

Computer Files

To order data files, use the Census Bureau "Electronic Media, Microfiche, Documentation, and Other" order form, or order by phone or fax. (**Sales are final**—with the exception that defective products may be returned within 90 days. Contact Customer Services before returning an item.) Technical documentation accompanies each file, or it often may be ordered separately. (See instructions in second paragraph under "Publications," above.)

The cost of new files on computer tape generally is based on the file size, with the minimum charge being \$175. The files are offered on tape reels or tape cartridges. (Arrangements for files on CD-ROM are covered below.)

The tape cartridges are IBM

3480 compatible (operable with StorageTek 4780 tape sub-systems and Digital Equipment Corporation VAX TA90 sub-systems).

Some data files are available on diskettes for IBM and compatible microcomputers. Diskettes generally cost \$66 for the first disk and \$6 for each additional diskette in a file.

When mass-produced, files on CD-ROM (compact disc-read-only memory) also are listed in the "Data Files" section earlier in this publication. These CD-ROM's generally cost \$150. Other tape files can be produced on CD-ROM by special order. See the discussion under "Data Files".

Online Access

Many reports and data files are accessible, in whole or in part, online through CENDATATM, the Census/BEA Electronic Forum, and Internet.
